RE: Civil Division Paperless

On February 4, 2009, the Executive Committee approved the implementation of the next phase of becoming a paperless court. Effective February 17, 2009, all civil departments within the Eighth Judicial District Court will be paperless. Implementing this policy is a culmination of many months of effort and planning by Chief Judge Hardcastle, Information Technology, and the Clerk's Office. This policy moves the Clerk's Offices from a paper intensive operation to a technology and quality assurance organization. Further, moving to a paperless environment will compliment the implementation of our new case management system expected to roll out by the second quarter of this year. The civil division joins the family division of the district court which went paperless in 2008.

Thank you in advance for your cooperation on the project.
